

LAUNDRY SERVICE SYSTEM - USER GUIDE

This document explains the Laundry Service System in simple, non-technical terms for business users, managers, and stakeholders.

WHAT IS THIS SYSTEM?

This is a complete online laundry management platform that connects:

- CUSTOMERS who need laundry services
- SERVICE PROVIDERS who offer laundry services
- ADMINISTRATORS who manage the platform

Think of it like Uber, but for laundry services!

The system includes a beautiful, modern landing page that explains everything about the platform before users sign up.

LANDING PAGE

When you first visit the website, you'll see a professional landing page with:

VISUAL DESIGN:

- Clean, modern interface with smooth animations
- Animated background with moving particles
- Light and dark theme options (click sun/moon icon)
- Professional icons throughout
- Sidebar navigation for internal pages
- Responsive design for all screen sizes (mobile, tablet, desktop)
- Sky blue light theme with excellent contrast
- Deep slate dark theme for comfortable viewing
- Smooth theme transitions
- Complete dark mode support on all 17 pages
- Mobile-first responsive design (320px and up)
- Touch-optimized buttons and controls
- Adaptive layouts for different screen sizes

COLOR PALETTE:

Light Theme:

- Background: Sky Blue (#f0f9ff) - Fresh and airy
- Primary: Sky 500 (#0ea5e9) - Vibrant blue
- Cards: White with soft shadows

Dark Theme:

- Background: Slate 900 (#0f172a) - Professional dark
- Primary: Sky 400 (#38bdf8) - Bright blue
- Cards: Slate 800 with proper contrast

NAVIGATION SYSTEM:

- Landing Page: Separate navbar with smooth scroll
- Auth Pages: Standalone (no navbar or sidebar)
- Internal Platform: Sidebar navigation with:
 - * Role-based menu items
 - * Mobile hamburger menu
 - * Theme toggle
 - * User profile display
 - * Logout button

SECTIONS YOU'LL FIND:

1. Hero Section - Main introduction with statistics
2. Features - 8 key features with icons and descriptions
3. How It Works - 7-step process guide
4. Pricing Logic - Comparison of traditional vs our system
5. Provider Benefits - Why service providers should join
6. Call-to-Action - Get started buttons
7. Footer - Contact information and links

INTERACTIVE FEATURES:

- Smooth scrolling when clicking navigation links
- Theme toggle for light/dark mode (saves your preference)
- Hover effects on cards and buttons
- Responsive design works on phones (320px+), tablets, and computers
- Sidebar navigation for easy access to all features
- Mobile-friendly hamburger menu
- Loading indicators when fetching data
- Friendly messages when no data is available
- Error messages with retry options
- Empty state displays with helpful guidance
- Touch-optimized for mobile devices
- Keyboard navigation support
- Proper contrast ratios for accessibility

HOW IT WORKS

FOR CUSTOMERS:

1. Sign up and create an account
2. Find nearby laundry service providers on a map
3. Select items you want to wash (shirts, pants, etc.)
4. Choose your pickup location
5. Submit your order
6. Provider reviews and gives you final price
7. Pay online (UPI) or cash on delivery
8. Track your order status
9. Receive clean clothes
10. Rate and review the service

FOR SERVICE PROVIDERS:

1. Register your laundry business
2. Set up your shop location and service area
3. Add items you wash with prices (shirt ₹20, jeans ₹30, etc.)
4. Set your payment details (UPI ID, QR code)
5. Receive orders from nearby customers
6. Review orders and set prices for special items
7. Pick up clothes from customer
8. Wash, dry, and iron
9. Deliver back to customer
10. Receive payment

FOR ADMINISTRATORS:

1. Monitor all activities on the platform
2. Approve new service providers
3. Handle customer complaints
4. Block bad users if needed
5. View business statistics and revenue

SYSTEM FEATURES

REGISTRATION SYSTEM:

- Modern multi-step slider interface
- Role selection: Customer or Provider
- Dynamic form fields based on role
- Customer: 5 steps (role, name, email, phone, password)
- Provider: 9 steps (adds shop name, address, location, service radius)
- **Automatic location detection** using browser GPS
- Click "Get Current Location" to capture coordinates
- Browser asks for permission before accessing location
- Progress bar shows completion percentage
- Smooth animations between steps
- Back button to correct mistakes
- Real-time validation
- Security: Admin role cannot be created from frontend

PROVIDER APPROVAL:

- New providers require admin approval
- Cannot accept orders until approved
- Approval message shown after registration
- Admin reviews and approves from dashboard

LOCATION-BASED MATCHING:

- System automatically shows customers only nearby providers
- Uses GPS to calculate distance
- Providers can set how far they want to serve (5km, 10km, etc.)

FLEXIBLE PRICING:

- Providers set their own prices
- Customers can add special items not in the list
- Provider reviews and sets price for special items
- Final price shown before payment

REAL-TIME TRACKING:

- Customers can see order status at any time
- Status updates: Awaiting Review → Confirmed → Picked Up → Processing → Delivered → Completed

MULTIPLE PAYMENT OPTIONS:

- UPI payment (Google Pay, PhonePe, etc.)
- Cash on Delivery
- Secure transaction tracking

QUALITY ASSURANCE:

- Customers can rate and review services
- Complaint system for issues
- Admin team resolves disputes

BUSINESS BENEFITS

FOR CUSTOMERS:

- ✓ Convenient - Order from home
- ✓ Transparent pricing - Know cost before confirming
- ✓ Track your order - No surprises
- ✓ Multiple providers - Choose the best one
- ✓ Safe payments - UPI or cash

FOR SERVICE PROVIDERS:

- ✓ More customers - Online visibility
- ✓ Control pricing - Set your own rates
- ✓ Manage orders - Easy tracking system
- ✓ GPS navigation - Find customers easily
- ✓ Payment flexibility - Accept UPI or cash

FOR BUSINESS OWNERS:

- ✓ Scalable platform - Add unlimited providers
- ✓ Revenue tracking - See all transactions
- ✓ Quality control - Handle complaints
- ✓ User management - Block bad actors
- ✓ Analytics - Understand business performance

PRICING STRUCTURE

The system calculates price as:

ITEM COSTS:

- Shirt: ₹20 (example)
- Jeans: ₹30 (example)
- Custom items: Provider sets price

ADDITIONAL CHARGES:

- Pickup charge: Set by provider
- Delivery charge: Set by provider
- Distance charge: ₹5 per km (example)
- Extra charges: For special requests

TOTAL = Items + Pickup + Delivery + Distance + Extra

Example:

- 2 Shirts (₹20 each) = ₹40
- 1 Jeans = ₹30
- Pickup = ₹20
- Delivery = ₹20
- Distance (3 km × ₹5) = ₹15
- TOTAL = ₹125

ORDER LIFECYCLE

STEP 1: ORDER CREATION

- Customer selects items and location
- System calculates base price
- Order sent to provider

STEP 2: PROVIDER REVIEW

- Provider sees order details
- Sets prices for custom items
- Adds any extra charges
- Confirms final price

STEP 3: CUSTOMER CONFIRMATION

- Customer sees final price
- Chooses payment method
- Confirms order

STEP 4: PICKUP

- Provider navigates to customer location
- Collects clothes
- Updates status to "Picked Up"

STEP 5: PROCESSING

- Provider washes, dries, irons

- Updates status to "Processing"

STEP 6: DELIVERY

- Provider delivers clean clothes
- Updates status to "Delivered"
- Collects payment if COD

STEP 7: COMPLETION

- Customer confirms receipt
- Gives rating and review
- Order marked "Completed"

SAFETY & SECURITY

USER SAFETY:

- All passwords are encrypted
- Secure login system
- Phone number verification
- User blocking for bad behavior
- Admin role protected (cannot be created from frontend)
- Role validation (only customer/provider allowed)
- Provider approval system for quality control

PAYMENT SECURITY:

- UPI payments through official apps
- Transaction ID tracking
- No credit card storage
- COD option available

DATA PRIVACY:

- Personal information protected
- Location data used only for service
- No data sharing with third parties

COMPLAINT RESOLUTION

If customer has an issue:

1. Customer raises complaint through app
2. Selects complaint type (quality, delivery, payment, etc.)
3. Describes the problem
4. Admin team reviews complaint
5. Admin contacts both parties
6. Issue resolved fairly
7. Complaint marked as resolved

Complaint Types:

- Quality Issue: Clothes not cleaned properly
- Delivery Issue: Late or wrong delivery
- Payment Issue: Overcharging or payment problems
- Behavior Issue: Rude or unprofessional conduct
- Other: Any other problems

GETTING STARTED

FIRST TIME VISITORS:

1. Visit the website (you'll see the landing page)
2. Scroll through to learn about features
3. Try the theme toggle (sun/moon icon) to switch between light/dark mode

4. Read about how the system works
5. Click "Get Started" or "Register" button
6. Choose your role: Customer or Service Provider

QUICK START WITH TEST DATA:

If the system administrator has run the database seeder, you can use pre-created test accounts to explore the system immediately:

1. Check the credentials.txt file (provided by admin)
2. Use any of these accounts to login:
 - Admin: admin@test.com / 123456
 - Provider: provider1@test.com / 123456 (or provider2-10)
 - Customer: customer1@test.com / 123456 (or customer2-5)
3. All test accounts use password: 123456
4. Test accounts come with:
 - Providers have complete profiles and garments
 - Sample orders in various stages
 - Feedback and complaints for testing
 - Payment configurations already set up

FOR CUSTOMERS:

1. Open the website
2. Click "Register"
3. ****Multi-Step Registration Process:****
 - Step 1: Select "Customer" role
 - Step 2: Enter your full name
 - Step 3: Enter your email address
 - Step 4: Enter your phone number
 - Step 5: Create a password (minimum 6 characters)
 - Click "Create Account"
4. Login and start ordering!

FOR SERVICE PROVIDERS:

1. Open the website
2. Click "Register"
3. ****Extended Multi-Step Registration:****
 - Step 1: Select "Provider" role
 - Step 2: Enter your full name
 - Step 3: Enter your email address
 - Step 4: Enter your phone number
 - Step 5: Create a password
 - Step 6: Enter your shop name
 - Step 7: Enter your shop address
 - Step 8: ****Allow location access**** - Click "Get Current Location" button
 - * Your browser will ask for permission
 - * Click "Allow" to share your location
 - * System automatically captures GPS coordinates
 - Step 9: Set service radius (optional, defaults to 10km)
 - Click "Create Account"
4. ****Wait for admin approval**** (you'll see a message)
5. Once approved, login and complete setup
6. Add your garment prices
7. Set up payment details
8. Start receiving orders!

=====

USER EXPERIENCE FEATURES

=====

LOADING STATES:

When the system is fetching data, you'll see:

- Animated loading spinner
- Helpful message like "Finding nearby providers..."
- Clear indication that something is happening

- No blank screens or confusion

EMPTY STATES:

When there's no data to display, you'll see:

- Friendly icon and message
- Explanation of why it's empty
- Helpful guidance on what to do next
- Action buttons to get started

ERROR HANDLING:

If something goes wrong, you'll see:

- Clear error message explaining what happened
- "Try Again" button to retry the action
- No technical jargon or confusing codes
- Helpful suggestions to fix the issue

VISUAL FEEDBACK:

- Buttons change color when you hover over them
- Forms show when fields are required
- Success messages after completing actions
- Smooth animations and transitions
- Clear active states for current page
- Theme support on all pages (light/dark mode)
- Responsive layouts adapt to screen size
- Touch-friendly buttons on mobile
- Proper spacing and typography
- Accessible color contrast

=====

SYSTEM REQUIREMENTS

=====

TO USE THE SYSTEM:

- Any modern web browser (Chrome, Firefox, Safari, Edge)
- Internet connection
- For location features: Allow location access
- For payments: UPI app or cash
- Works on mobile phones (320px and up)
- Works on tablets (768px and up)
- Works on desktop computers (1024px and up)

VISUAL FEATURES:

- Light and dark theme support on all pages
- Smooth animations and transitions
- Professional design with excellent contrast
- Mobile-friendly interface with touch optimization
- Responsive layouts that adapt to screen size
- Accessible design with keyboard navigation

NO NEED TO:

- Download any app
- Install software
- Have technical knowledge
- Use special devices

=====

SUPPORT & HELP

=====

If you need help:

- Contact admin through the platform
- Check order status in your dashboard
- Review this guide for common questions
- Admin team available to resolve issues

TEST ACCOUNTS (If Seeder Was Run):

If you're testing the system, use these credentials:

- Admin: admin@test.com / 123456
- Provider: provider1@test.com to provider10@test.com / 123456
- Customer: customer1@test.com to customer5@test.com / 123456

All test accounts have password: 123456

Check credentials.txt file for complete list with names and phone numbers.

FUTURE ENHANCEMENTS

Planned features:

- Mobile app for iOS and Android
- SMS notifications for order updates
- Loyalty points and discounts
- Subscription plans for regular customers
- Multiple pickup/delivery slots
- Photo upload of clothes
- Damage reporting with images

BUSINESS METRICS

Track these numbers:

- Total orders per day/week/month
- Average order value
- Customer satisfaction ratings
- Provider performance
- Revenue generated
- Complaint resolution time
- Customer retention rate

BEST PRACTICES

FOR CUSTOMERS:

- ✓ Provide accurate location
- ✓ List all items clearly
- ✓ Be available during pickup/delivery
- ✓ Give honest feedback
- ✓ Report issues promptly

FOR PROVIDERS:

- ✓ Keep prices competitive
- ✓ Respond to orders quickly
- ✓ Maintain quality standards
- ✓ Be punctual for pickup/delivery
- ✓ Handle clothes with care
- ✓ Communicate with customers

FOR ADMINS:

- ✓ Monitor complaints daily
- ✓ Approve providers after verification
- ✓ Block abusive users
- ✓ Track system performance
- ✓ Ensure fair resolution

=====

FREQUENTLY ASKED QUESTIONS

=====

Q: How do I find providers near me?

A: System automatically shows providers within their service radius from your location.

Q: Can I cancel an order?

A: Yes, before pickup. After pickup, contact provider or admin.

Q: What if clothes are damaged?

A: Raise a complaint immediately with details. Admin will investigate.

Q: How do I change my prices as a provider?

A: Go to "Manage Garments" and update prices anytime.

Q: Is my payment information safe?

A: Yes, we don't store payment details. UPI payments go through official apps.

Q: Can I serve multiple areas as a provider?

A: Yes, set your service radius (up to 20 km).

Q: What if provider doesn't show up?

A: Contact admin immediately. We'll resolve and may penalize provider.

Q: How do I become a provider?

A: Register, complete profile, wait for admin approval, start receiving orders.

(If using test data, provider accounts are pre-approved)

Q: Can I test the system without registering?

A: Yes! If the seeder was run, use test accounts from credentials.txt file.

Example: Login as customer1@test.com / 123456 to test customer features.
